

## SULPHOLAN

### Ointment

**Composition:**

Each Pack of 80 g contains:

Sulphathiazol Sodium 3 g

Sulphadimidine Sodium 2 g

Neomycin Sulphate 1g

**Description:**

Neomycin is an antibiotic active against gram-negative bacteria.

The combination of sulfonamides and neomycin greatly enhances antimicrobial activity which covers most common gram-positive and gram-negative bacteria particularly active against aerobic bacteria which may show resistance against commonly used antibiotics.

**Indications:**

- Oral treatment of bacterial diarrhea and enteritis in calves, sheep, goats and foals
- Used topically for wounds, vaginitis and foot rot.

**Usage:**

- Apply the ointment by the spoon (attached) on the tongue.
- For external use: apply the ointment on the infected area.

**Dosage:**

Calves and foals: 20 ml twice daily for 3 days.

Sheep and goats: 10 ml twice daily for 3 days.

**Storage conditions:**

Store in airtight containers, in a moderate temperature (15-25 C) and protect from direct sunlight.

**Packing:**

Pack of 80 g.
